NPRG UNVEILS ENHANCED WEB SITE

CONTENT TO DRIVE IT

We're excited to announce the unveiling of NPRG's new and improved Web Site (www.nprg.com). In developing this enhanced site, our goal was to develop a platform that will be content-oriented. Sure, information on NPRG is still there, but increasing, so will additional content – insights and information you can use.

In that vein, we launched NPRG's first podcast series – "Conversations with Communications Innovators." For your convenience, we attached our first podcast to this Advisor.

Going forward, we'd love to hear your feedback and suggestions on our "content-oriented" web site, our podcast series, or topics you'd like to hear us address.
